Remedial Design of Austin Avenue Radiation Site  
Modification No. 1 - Warehouse Property  
Preliminary Draft of Field Investigation Report

Dear Mike:

Per your request, enclosed is one (1) copy of the Preliminary Draft Report documenting the results of the field investigation at the Warehouse property. The document is being provided to you as "Preliminary", prior to internal QA/QC review at WESTON, so that USACE and EPA can start addressing issues associated with the contaminated groundwater identified at the site.

The "official" Draft Report will be provided as part of the 60% deliverable for the new home designs. If you have any questions or comments, please give me a call at (610)701-5017.

Very truly yours,  
ROY F. WESTON, INC.
